

SENIOR GEOENVIRONMENTAL ENGINEER / ENGINEERING GEOLOGIST

GRM are pleased to announce an opportunity for a Senior Engineer to join the team at our head office in Burton on Trent. Salary from £37,000 per annum.

DUTIES WILL INCLUDE (but not limited to):

- The design, supervision, and management of site investigations including costing and procuring work from sub-contractors.
- Necessary site attendance to undertake ground investigation and assessment.
- Line Management and mentoring of less experienced technical staff.
- Interpretative report writing (geotechnical and environmental).
- Risk Assessments - GQRA (Human Health, Controlled Waters, Ground Gas etc.).
- Supervision of foundations, earthworks, remediation, and validation works.
- Preparation of Health & Safety Documentation and assistance in the collation of all project related health and safety information.
- Site meetings and acting as a point of contact for clients.

QUALIFICATIONS / EXPERIENCE/SKILLS:

- Minimum qualification of a degree in one of the Earth Sciences.
- 6+ years UK experience of contaminated land assessment, geotechnical investigation and foundation design is essential.
- Understanding of relevant UK regulatory guidance.
- Proficient in the design and analysis of geoenvironmental investigations.
- Experience in historical coal mining investigations and remediation would be advantageous.
- Extensive experience in the production of Phase I and Phase II Geo-environmental reports, including generic human health, controlled waters and ground gas risk assessment and foundation advice.
- Willingness to work away from home and/or unsociable hours from time to time when required.
- Excellent written and verbal communication skills.
- Strong interpersonal / team working skills, with a good working relationship at all levels of the organisation, clients and contractors.
- Able to deal with and preferably enjoy the challenge of rapidly changing circumstances and requests from clients.
- Ability to log soil and rock in accordance with the current British Standards.
- Member of the Geological Society (or similar) and working towards chartered status.
- Full UK Driving License essential (Category B manual gears).
- The successful applicant **must** be able to demonstrate their right to work in the UK.

GRM OFFER

A unique working environment, an accredited training scheme towards Chartered status, 4 x annual salary Life Insurance, 4-6% matched pension contributions, payment of professional membership, 34 days annual leave (including bank holidays and Christmas shutdown), and payment of approved overtime.
